FUND-A-NEED SPONSOR MATCH

Before the event sets sail, we are seeking additional donations for a special project in need of funding.

Students of all ages in performances and activities on the high school stage will benefit from new technology and an expanded sound board for larger casts, more microphones, wireless crew communication, and better overall audio in the auditorium. Recently the high school stage became an ocean liner carrying our 5th graders from New York to London in 'Anything Goes', developing confidence and a sea of new friends right in time for middle school. SPEF is proud to provide enriching opportunities such as the 5th Grade Musical in partnership with donors who invest generously in our mission. At Parti Gras, we'll announce the sponsors' match and ask all guests to give and amplify this worthy project! Give if you can!
